

Project Documentation: IntroToComputing-Challenges

Challenge #9: Video and Forms

Objective

Create documentation for the code related to embedding local video and implementing contact forms in the LunaTea project based on learning from web development practices.

GitHub Repository:

<https://github.com/teknikolbarsubia0563/IntroToComputing-Challenges>

Embedded Local Video

```
<!-- about section starts here -->
<section class="about" id="about">
  <h1 class="heading"><span> about </span> us </h1>
  <div class="row">
    <div class="video-container">
      <video src="images/Chai%20%20Cinematic%20Tea%20B-Roll.mp4" loop autoplay muted></video>
      <h3>best herbal tea sellers</h3>
    </div>
    <div class="content">
      <h3>why choose us?</h3>
      <p>Tea has enchanted Sarah since childhood, evolving beyond a mere drink during cherished m
      <p>Driven by a natural inclination, she embarked on a magical journey of service, sharing t
      <a href="#" class="btn">learn more</a>
    </div>
  </div>
</section>
<!-- about section ends here -->
```

Embedding Video using iframe:

Replace the current video section in your HTML with an iframe tag pointing to your local video file:

```
<!-- about section starts here -->
<section class="about" id="about">
  <h1 class="heading"><span> about </span> us </h1>
  <div class="row">
    <div class="video-container">
      <iframe src="your-local-video-file.mp4" frameborder="0"
allowfullscreen></iframe>
      <h3>best herbal tea sellers</h3>
    </div>
    <!-- ... rest of the code ... -->
  </div>
</section>
<!-- about section ends here -->
```

Contact Forms

Include a contact form in the "Contact" section of the project. Here is an example form:

```
<!--Contact section starts here-->
<section class="contact" id="contact">
  <h1 class="heading"> <span> contact </span> me </h1>
  <div class="row">
    <form action="">
      <input type="text" placeholder="name" class="box">
      <input type="email" placeholder="email" class="box">
      <input type="number" placeholder="number" class="box">
      <textarea name="" class="box" placeholder="message" cols="" rows="10">
      </textarea>
      <input type="submit" value="send message" class="btn">
    </form>
    <div class="image">
      
    </div>
  </div>
</section>
<!--Contact section ends here-->
```
