

LunaTea Website Documentation

Overview

The LunaTea website is a simple and stylish HTML webpage designed for a tea-related business. It includes sections for the home, about us, and a feature section with icons highlighting key benefits. The website has a responsive design, making it suitable for various devices.

HTML Structure

The HTML document is structured as follows:

1. Document Type Declaration (DOCTYPE):

```
<!DOCTYPE html>
```

2. HTML Root Element:

```
```html<html xmlns="http://www.w3.org/1999/xhtml" lang="en">...```
```

- The `xmlns` attribute specifies the XML namespace, adhering to XHTML standards.

**3. Head Section:**

- Meta tags for character set, compatibility, and viewport.
- Title for the webpage.
- Links to external stylesheets (Font Awesome and a custom stylesheet).

**4. Body Section:**

Header:

- Navigation bar with links and icons.

Home Section:

- Promotional content with a call-to-action button.

About Section:

- Video container with a looped and muted video.
- Information about the business with a "Learn More" button.

Icons Section:

- Four icons highlighting key features with accompanying text.

## Usage of XHTML Features

Self-Closing Tags:

- Tags like `

## Additional Notes

- The website utilizes Font Awesome for icons.
- The video source is currently a placeholder, and the paths to image sources should be updated based on the actual file locations.

## **Future Improvements**

- Consider adding actual content, images, and videos.
- Enhance the styling for a more visually appealing design.
- Implement functionality for navigation links and buttons.

## **Conclusion**

The LunaTea website serves as a foundation for a tea business, providing a clean and structured layout. It can be further developed and customized to meet specific business requirements.

This documentation provides a brief overview of the LunaTea website's structure, features, and potential areas for improvement. Adjustments and enhancements can be made based on specific business needs and preferences.
